

2

Invente ou trouve autour de toi une situation par fraction.

Tu peux dessiner ou écrire.

5. Je vais plus loin

1

Nomme les fractions représentées.

La partie colorée représente « ce que l'on prend » : le numérateur.

Pour connaître le dénominateur, observe **en combien l'unité est partagée**.

2

Colorie les fractions en bleu.

Représente $\frac{1}{2}$ de ce carré de 3 façons différentes :

Trouve une quatrième façon :
